Declaration of Conflict Minerals

The Dodd-Frank Wall Street Reform and Consumer Protection Act requires all publicly traded manufacturers to report each year to the Securities and Exchange Commission (SEC) whether their products contain metals derived from conflict minerals. These minerals, which originate in the Democratic Republic of Congo or an adjoining country, are defined as tin, tantalum, tungsten or gold, and their derivatives.

This letter is to inform all of Mesan customers that conflict minerals are not are used in the manufacture or contained as an ingredient in any Mesan product.
